

Workshop Announcement

Workshop on Multiferroics V: Domain Physics

Tuesday, November 30, 2010
9:00 AM - 6:00 PM

Workshop Focus:

The workshop will feature talks and discussion of current research and future plans in multiferroic materials by members of the oxides team of the NSF supported UMD-MRSEC and several outside speakers. The main theme will be the physics of magnetic and ferroelectric domains and their interactions. In addition to the speakers listed below, there will be a poster sessions featuring current research activities.

Speakers:

Sang-Wook Cheong	Rutgers
John Cumings	University of Maryland
Dennis Drew	University of Maryland
Manfred Fiebig	Max-Born-Institut, Berlin
Valery Kiryukhin	Rutgers
Maxim Mostovoy	University of Groningen
Lourdes Salamanca-Riba	University of Maryland
Ichiro Takeuchi	University of Maryland
Weida Wu	Rutgers

Location:

2120 John S. Toll Physics Bldg.
University of Maryland
College Park, MD 20742
